

Brandt Citric Zinc

A citrate chelate for prevention and correction of Zinc deficiencies

GENERAL INFORMATION

BRANDT CITRIC products are citric acid chelated micronutrient fertilizer solutions for use in balanced nutritional programs. BRANDT CITRIC products are primarily designed for soil applications.

Soil Application

Row, Band or Side-dress: Use 1-4 quarts BRANDT CITRIC ZINC per acre. BRANDT CITRIC ZINC is compatible with many polyphosphate starter solutions such as 10-34-0 and 11-37-0 and can be applied at time of planting.

BRANDT CITRIC ZINC may effectively be applied with most polyphosphate N-P-K starter solutions. For unfamiliar tank mix combinations sufficient evaluation to determine efficacy and crop safety may be warranted. A jar test is a good field practice for evaluating compatibility within a spray tank of multiple chemical mixtures. Optimum rate of application will vary depending on your soil properties such as soil pH, organic matter content, soil texture, weather conditions, time of year, general crop health and species. For best results, follow soil test or plant analysis recommendation.

Information concerning the raw materials composing the product in this container can be obtained by writing to Brandt Consolidated, Inc. and referring to the product name.

Warranty: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.

Mixing Instructions

Starter Fertilizer: BRANDT CITRIC ZINC may be mixed with most polyphosphate based starters, such as 10-34-0 and 11-37-0. Mix solution well to ensure complete and even dispersion. **Caution:** It is not intended for BRANDT CITRIC COPPER to be mixed with orthophosphate solutions.

Weight per gallon: 10.2 lbs

CAUTION: KEEP OUT OF REACH OF CHILDREN

CAUTION: Harmful if swallowed. Avoid contact with skin, eyes and clothing. Causes eye irritation. Avoid breathing spray mist. Wash hands thoroughly after using. In case of eye contact, flush eyes with plenty of water for at least 10 minutes and get medical attention.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Store in a cool, dry, locked area out of reach of children. Protect from excessive heat or cold. Triple rinse (or equivalent) and dispose of container in accordance with local, state and federal regulations.
